

Read every document, table, and form — *at machine speed.*

Agentic Document Extraction (ADE) turns invoices, contracts, forms, and reports into structured, schema-driven data. Every field is grounded to its bounding box on the source page. Get verified outputs your teams can audit and defend. Process one document or one million.

USE CASES

Agentic Document Extraction *Applications*

- 01 Invoice & Accounts Payable Automation**
Extract invoice numbers, vendor details, line items, totals, and payment terms from any invoice format (paper, PDF, or scan) and feed them straight into your AP system without manual data entry.
- 02 Business Contract Review**
Parse MSAs, NDAs, SOWs, and amendments for parties, effective dates, term, renewals, indemnity caps, and governing law. Any format, no templates.
- 03 User-Submitted Document Intake**
Process IDs, bank statements, pay stubs, and proof-of-income documents during account opening, lending, or onboarding. Every extracted value is traceable and citable.
- 04 Technical Specs for Customer Service**
Turn product manuals, technical specifications, and engineering datasheets into searchable, structured knowledge that powers support agents, RAG systems, and field-tech workflows.

"Trust is the product. Accuracy alone isn't enough at enterprise scale. What matters is provenance, traceability, and control. LandingAI gives us confidence that every extracted value can be audited and defended."

CHIEF DATA OFFICER · GLOBAL ENTERPRISE

WHY AGENTIC DOCUMENT EXTRACTION

Built for real-world documents

Visual grounding, audit-ready

Every extracted field links to a bounding box on the source page. Teams can verify, cite, and defend every value. No black-box outputs.

Zero-shot, no templates

Parses any document format on day one (invoices, contracts, scanned forms, multilingual layouts) without per-template training.

Designed for complex layouts

Handles dense multi-page tables with merged cells, handwriting, signatures, stamps, and embedded figures. Actual documents, not clean demos.

WHAT YOU GET

- Complete document processing platform
- Flexible deployment options: SaaS or VPC
- Developer-friendly, composable APIs
- Standardized pipeline across document types
- LLM-ready markdown and JSON outputs
- Reconstruction of tables across pages
- Agentic system that plans and executes
- Enterprise reliability and security
- Implementation support from AI engineers
- Native support for global languages
- Recognition of checkboxes and signatures
- Enrichment of diagrams and figures

Composable APIs to Design Agentic Workflows

- Parse** (Green): Make your document computable
- Extract** (Blue): Request structured fields as output
- Classify** (Grey): Determine the document type
- Section** (Dark Green): Generate a hierarchical table of contents
- Split** (Purple): Break large documents into smaller components

COMMON DOCUMENT PROCESSING PIPELINES

Invoice Extraction with Grounding and Confidence (Simplified)

EXCERPTS FROM ORIGINAL DOCUMENT

Invoice 0001131 · Roofing Renovations Inc Page 1 of 1

Supplier Information
 Supplier: **Roofing Renovations Inc** · 4917 Old Randleman Rd, Greensboro, NC 27406 · Phone: 336-862-5235

• p.1 · box [305, 34, 580, 93] · conf 0.997

Billed To
 Real Property Management · 1901 Lendew St Suite 7 · Greensboro, NC 27408

• p.1 · box [33, 121, 169, 293] · conf 0.996

Invoice Metadata
 Date of Issue: 01/29/2020 · Invoice Number: 0001131 · Total Due: \$3,550.00 · Billing contact: Jonathan Pierce · PO Number: not provided

• p.1 · box [195, 20, 309, 299] · conf 0.995

Line Items
Standard HVAC Unit · Rate \$2,650.00 · Qty 1 · Tax \$23.18 · Amount Due (USD): \$2,673.18
